# Why Riccar?

Your home is an investment, and your oasis. That's why Riccar vacuums aren't just designed for your refined aesthetic - they're made in pursuit of perfection, a machine for world-class clean.

## Tandem Air Technology

Patented dual-motor technology combines suction and bypass motors with tremendous airflow and superior particle and odor filtration for exceptional cleaning. Engineered to last, Tandem Air vacuums resist breakage, provide outstanding reach for tool use and can be tailored to your changing flooring needs.

## Clean Air Technology

360-degree turning, ultra light handle weight and an auto-adjusting nozzle make cleaning easy on multiple floor types. Three models with a lifetime belt, HEPA media bag and tools meet basic, intermediate or advanced cleaning needs.

## Dirt Sensor

As soon as deep down dirt is gone, the amber light turns off, letting you know you can move on. This laser-guided dirt and allergen sensor is available in Premium Pet models.

## Lifetime Belt Protection

When the brushroll senses a jam, the brushroll stops turning until the jam is cleared, saving you from unexpected belt changes.

## Smart Sensors

Light up to indicate that it's time to change the bag or filters, eliminating guesswork. All models have a full bag indicator.

## Charcoal-Infused HEPA Media Bag

Breathe easier! Multiple layers of filtration lock in allergens, such as dust, pollen and pet dander.

Specifications as of 8/2022. See retailer for pricing and specifications by model.
